

Baby Gonna Holla

By Will Avery © 2014

Greetings and welcome to the Baby Gonna Holla musical journey. Each song paints an episode from different times in my life. Years of playing violin in orchestra gives me a basic understanding of music theory; however, I primarily compose music based on feelings. Key signatures, progressions and rhythms are secondary to how I feel when putting everything together. While the keyboard is my main instrument used for making music, this project uses many live musicians such as drums, bass, flute, violin, sax, guitar, etc. Thank you for sharing your time to experience some happy moments captured in a bottle, Baby Gonna Holla. I hope you enjoy.

Truly,

Will

So Darn Cute by Will Avery © 2014

(Piano - Eugene Iosilevich, Bass - Andrew Griffin, Drums - Graham Doby, Vocals - Will Avery)

I love you when you're crazy
I love you when you're smart
Just because you're so darn cute
And have a loving heart

Memories are simply time trapped in your mind
The times we share whether good or bad
Are what a life is meant to have

I love you when you're crazy
I love you when you're smart
Just because you're so darn cute
And have a loving heart

To Live and love, to love and live
Without both neither exist
To look in your eyes, to feel your touch
Or just to have your tender kiss

The times when we're together
The times when we're apart
The memories you give to me
Are like a work of art

Yeah (Instrumental) by Will Avery © 2014

(Bass - Andrew Griffin, Drums/Cowbell - Graham Doby, Guitar - Aaron Sefchick,
Sax/Flute/Piccolo - John DiSanto, Vocals - Will Avery)

Funky-Funky by Will Avery © 2014

(Bass/Trumpet - Andrew Griffin, Drums - Shawn Leonard, Guitar - Aaron Sefchick, Sax - John DiSanto, Vocals/Percussion - Will Avery)

No "I" in team, but two in winning
Me and myself will take you back to the beginning
For the boys and the girls, the men and the women
Red light stop, but the world keeps spinning

Another day another dime... What happened to my dollar?
If baby gets no milk, baby gonna holla
Don't be sad and grey. The sun comes out tomorrow
A penny for my thoughts, I'd have a billion dollars
I'm a bad mamma jamma. Do the split in my pajamas
I can do the bop and a little MC Hammer
I love eating fruits like apples and bananas
I jab you with my phonics and hook you with my grammar
Music in my soul and funk in my body
If I get the blues, chop kick it like karate

Turn Around by Will Avery © 2014

(Bass - Andrew Griffin, Drums - Graham Doby, Guitar - Aaron Sefchick, Clarinet - John DiSanto, Vocals - Will Avery)

And around and around
Dizzy, dizzy, dizzy
But you don't fall down

Double Ka Meetha by Will Avery ©2014

(Bass - Andrew Griffin, Drums - Graham Doby, Piano - Eugene Iosilevich, Vocals/Guitar - Will Avery, Backing Vocals - Joey Baham, Guest Vocals - "Baby Ka Meetha")

Verse 1

Baby's a conundrum. She puts me in a pickle.
I touched her on the knee. She giggles and she says "That tickles"
She likes to change her mind because she's so so fickle.
She gives me her 2 cents, plus a quarter and a nickel.
32 pennies for 32 thoughts
My sweet honey bun with the pepper and the salt
32 pennies for 32 thoughts
That's my sweet honey bun with the pepper and the salt

CHORUS

Double Ka Meetha. Ballay Ballay
Double Ka Meetha. Ballay Ballay
Double Ka Meetha. Ballay Ballay
Give me one more for the road before I go.
Double Ka Meetha. Ballay Ballay
Double Ka Meetha. Ballay Ballay
Double Ka Meetha. Ballay Ballay
Give me one more for the road

See no, hear no, speak no evil. Shh
Baby is a rebel screaming "Power to the people!"
Power to the people, power to the people
Power to the, power to the, power to the people!
In the blink of an eye she's grown and gone
Out in the world all on her own
Remember any time that you can come home
And on my birthday call me on the phone

(CHORUS)

(Verse 1)

(CHORUS)

L-I-I-lady, s-so amazing (Lady. So amazing)
Literally my my my b-b-baby (That's my baby)
L-I-I-lady, s-so amazing (Lady. So amazing)
Literally my my my b-b-baby (That's my baby)
L-I-I-lady, s-so amazing (Lady. So amazing)
Literally my my my b-b-baby (That's my baby)

Love My Baby by Will Avery ©2014

(Bass - Andrew Griffin, Drums - Shawn Leonard, Guitar - Aaron Sefchick, Vocals/Keyboard - Will Avery, Guest Vocals - "Baby Ka Meetha")

I love my baby and she loves me, too.
I do most anything she asks me to.
I love her. I said it before.
But I'll say it again and I'll say it once more.
Because I love my baby and she loves me, too.
She always tries to do something new.
She makes me laugh and makes me smile.
Because she's so darn cute and versatile

My sweetie pie, apple of my eye
You can do anything if you try.
I'll be by your side to hold your hand
You can talk to me. I'll understand (yeah, yeah)

My little one, life has begun
So many challenges to overcome
I'll be by your side to hold your hand
You can talk to me. I'll understand (yeah, yeah)

Super DBA by Will Avery ©2014

Cooler than ice chillin' in refrigerators
I'm Super Database Administrator
Cooler than ice chillin' in refrigerators
I'm Sup... Super DBA

I was walking in the park. Saw a cat up a tree
"Please, Super DBA. You got to help me"
I looked up. The cat started falling down.
I had to think quick before it hit the ground.

```
UPDATE park SET ground='cotton candy';  
COMMIT;
```

The cat landed and everything was dandy.
The lady said, "Thanks" and the kids had fun.
Free cotton candy for everyone

I'm Super Super DBA
Using SQL powers to save the day
RMAN's got my back night and day
I fast commit transactions with no delay

Hackers get back. No getting in my system
Got powerful password packet encryption
I roll like a stone. Walk like an Egyptian
Anything WACK - not in my description
I can undo the past. Flash you back to the present
You got to give me space. Time is of the essence
Forever growing. Knowledge flowing
If I select one record, you can't handle what I'm
showing.

Cooler than ice chillin' in refrigerators
I'm Super Database Administrator
Cooler than ice chillin' in refrigerators
I'm... Super DBA

My DBA phone was ringing early in the morning
It was an ORA- critical. I had to get going
To the DBA Mobile. Riding really fast.
Putt, putt... Running out of gas.

```
INSERT INTO car (tank) VALUES ('fuel');  
COMMIT;
```

Vroom. Cruising down the avenue.

```
UPDATE traffic_light SET color='green';  
COMMIT;
```

Like that, I was there on the scene.

I came in the door. I saw this before.
It was a party but nobody was dancing on the floor.
To make the people move. Get into the groove
I grabbed the microphone went Check 1, 2

```
SELECT hip FROM hop;  
SELECT dont FROM stop;  
SELECT a_little_funk FROM the_planet_rock;  
SELECT cool FROM jazz  
WHERE the_beat='pizzazz';  
SELECT the_best FROM anything_you_ever_had;
```

All is good and the case is closed.
Up to the cloud away I go...
I got RACs on RACs to data guard your back
Scaling through the grid stopping any attack

I'm Super Super DBA
Using SQL powers to save the day
RMAN's got my back night and day
I fast commit transactions with no delay
